Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	4 Marks

Project Overview

This project analyzes state-wise electricity consumption across India from January 2019 to December 2020, focusing on national trends, regional demand variation, the COVID-19 lockdown impact, and post-lockdown recovery using data analytics and visualization.

Brainstorm Ideas

- Analyze monthly electricity consumption trends.
- Compare regional demand across India.
- Evaluate COVID-19 lockdown impact.
- Rank states by recovery after lockdown.
- Develop an interactive Power BI dashboard.
- Provide policy recommendations.

Workflow

Idea Prioritization

High: Trend Analysis, Regional Comparison, Lockdown Impact, Dashboard.
Medium: KPI Analysis, State Ranking.
Future: Machine Learning-based electricity demand forecasting.
